## **Your checklist of what to pack:**

- **OLD clothes for caving:** T-shirts and shorts (to go under Overalls that we'll supply) - don't bring new stuff, cos we WILL get wet and dirty!
- **OLD shoes for caving:** they need to cover your feet for protection, so no thongs or sandals. Don't bring good sneakers as they WILL GET WET AND DIRTY - talk to us before the trip if this is a hassle – we have some spare shoes you may be able to borrow
- **A change of clothes:** including warm jumper, long pants and socks to put on at the end of the day to keep you toasty warm - the Southeast can get really cold at night!
- **Sunglasses and hat:** for when we're outside
- **Music CDs:** if you like - for tunes in the vehicle on the way there and back home

## **Your checklist of what to leave at home:**

- **Drugs and alcohol:** All our programs are DRUG AND ALCOHOL FREE, however smoking tobacco is permitted. Personal medication prescribed by a qualified medical practitioner is held by staff.
- **MP3 players:** We can listen to CD's and/or the radio in the vehicle while we're traveling.
- **Mobile phones:** Please don't bring them - we have a satellite phone for use in emergencies.

# **Adventure For Life!**

## **We'll supply you with the following:**

- **Transport:** in our 4WD 10 seater Toyota Troop Carrier
- **All meals and snacks:** please let us know before the day if you have special dietary needs
- **Rain jacket:** yep, we operate in the rain - not that it rains much in the caves!
- **Adventure gear:** Caving gear (overall, helmet & headlight), sleeping bag, sleeping mat and 2-person (share) tent
- **Sunscreen, insect repellent:** and a hat if you haven't got one!
- **GOOD COMPANY AND A GREAT TIME!**
